

# How to import Zip

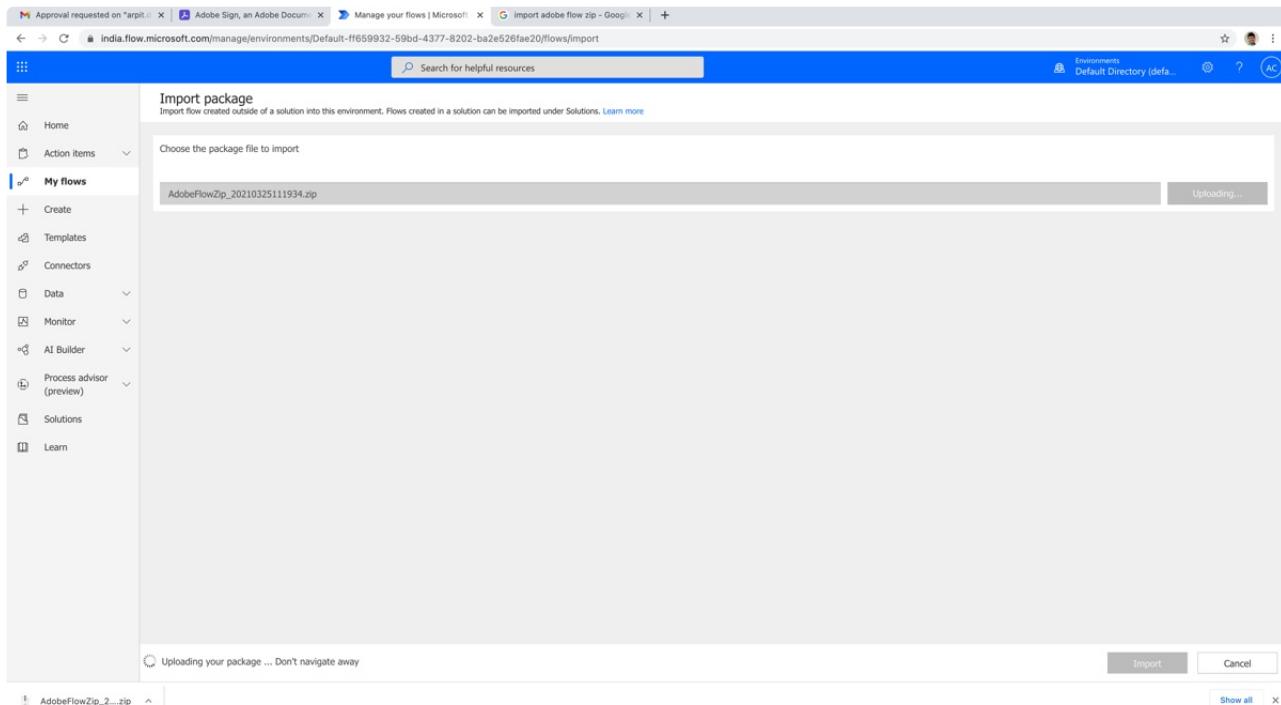

Login to Flow App

Click on My Flow in sidebar then click on import

The screenshot shows the Microsoft Flow application interface. On the left, there's a sidebar with various options like Home, Action items, Create, Templates, Connectors, Data, Monitor, AI Builder, Process advisor (preview), Solutions, and Learn. Under 'My flows', there's a 'Cloud flows' section with a table showing one flow named 'Adobe Challenge'. At the top center, there's a search bar and a 'Import' button highlighted with a red box. The URL in the address bar is <https://india.flow.microsoft.com/manage/environments/Default-ff659932-59bd-4377-8202-ba2e526fae20/flows>.

Upload the Zip that you have received in the challenge submission.

The screenshot shows the Microsoft Flow application interface with the 'Import package' screen open. The sidebar is the same as the previous screenshot. The main area has a heading 'Import package' with a sub-instruction 'Import flow created outside of a solution into this environment. Flows created in a solution can be imported under Solutions.' Below this is a 'Choose the package file to import' input field containing 'AdobeFlowZip\_20210325111934.zip'. A progress bar indicates 'Uploading...' and a status message 'Uploading your package ... Don't navigate away'. At the bottom right are 'Import' and 'Cancel' buttons. The URL in the address bar is <https://india.flow.microsoft.com/manage/environments/Default-ff659932-59bd-4377-8202-ba2e526fae20/flows/import>.

Click on action button

The screenshot shows the Microsoft Flow 'Import package' dialog. On the left, a sidebar menu includes 'My flows' (selected), 'Create', 'Templates', 'Connectors', 'Data', 'Monitor', 'AI Builder', 'Process advisor (preview)', 'Solutions', and 'Learn'. The main area displays 'Package details' for 'Adobe Flow Zip' created by N/A on 25/03/2021. It lists 'Environment' as N/A and 'Description' as N/A. Below this is the 'Review Package Content' section, which shows a single item: 'Adobe Challenge' (Flow type) with 'Import setup' set to 'Create as new' and 'Adobe Challenge Import' action. Under 'Related resources', there are three entries: 'Adobe Challenge' (Adobe PDF Tools Connection), 'Adobe Sign' (Adobe Sign Connection), and 'arpit@appcheck.in' (Office 365 Outlook Connection), all with 'Import setup' set to 'Select during import'. At the bottom right are 'Import' and 'Cancel' buttons.

Click on the existing connection you have for adobe PDF tools or create a new connection by clicking on create new button.

This screenshot is similar to the previous one, but it includes an open 'Import setup' modal on the right. The modal has a 'Setup' dropdown set to 'Select during import' and a note: 'The package creator chose this setup. You can make changes to the import here.' It contains a '+ Create new' button and a 'Refresh list' button. A table shows a single entry: 'Adobe Challenge' (6 h ago). At the bottom of the modal are 'Save' and 'Cancel' buttons.

Similar process for Adobe Sign and Office 365 Connection.

After all connections are completed, click on import button.

The screenshot shows the Microsoft Flow 'Import package' interface. On the left, a sidebar menu is visible with options like Home, Action items, My flows (selected), Create, Templates, Connectors, Data, Monitor, AI Builder, Process advisor (preview), Solutions, and Learn. The main content area is titled 'Import package' and 'Import package details'. It shows a package created by N/A on 25/03/2021. The package has a name 'Adobe Flow Zip', environment 'N/A', and no description. Below this is a 'Review Package Content' section with a table:

NAME	RESOURCE TYPE	IMPORT SETUP	ACTION
Adobe Challenge	Flow	Create as new Adobe Challenge Import	

Below the table is a 'Related resources' section with another table:

NAME	RESOURCE TYPE	IMPORT SETUP	ACTION
Adobe Challenge	Adobe PDF Tools Connection	Select during import Adobe Challenge	
Adobe Sign	Adobe Sign Connection	Select during import Adobe Sign	
arpit@appcheck.in	Office 365 Outlook Connection	Select during import arpit@appcheck.in	

At the bottom right are 'Import' and 'Cancel' buttons.

If the import is successful then all the package contents will have green checkbox.

This screenshot shows the same Microsoft Flow interface after the import process has completed successfully. The 'Adobe Flow Zip' package now contains three items, each with a green checkmark in the 'ACTION' column, indicating they were imported successfully:

NAME	RESOURCE TYPE	IMPORT SETUP	ACTION
Adobe Challenge Import	Flow	Create as new	

NAME	RESOURCE TYPE	IMPORT SETUP	ACTION
Adobe Challenge	Adobe PDF Tools Connection	Select during import	
Adobe Sign	Adobe Sign Connection	Select during import	
arpit@appcheck.in	Office 365 Outlook Connection	Select during import	

Click on Open Flow link.

The screenshot shows the Microsoft Power Automate interface. On the left, there's a sidebar with options like Home, Action items, My flows (which is selected), Create, Templates, Connectors, Data, Monitor, AI Builder, Process advisor (preview), Solutions, and Learn. The main area is titled 'Adobe Flow Zip'. It displays a message: 'All package resources were successfully imported.' Below this, it says 'The flow has been created successfully. Run the flow to make sure its working. Open flow'. Under 'Package details', it shows 'Created by N/A on 25/03/2021'. It lists 'Name: Adobe Flow Zip', 'Environment: N/A', and 'Description: N/A'. A section titled 'Review Package Content' allows you to choose import options for 'Adobe Challenge Import' (Flow) and related resources 'Adobe Challenge' (Adobe PDF Tools Connection) and 'Adobe Sign' (Adobe Sign Connection). At the bottom, there's a download link for 'AdobeFlowZip\_2.zip' and a 'Show all' button.

Click on the save button to save the flow then click on test button to test it.

The screenshot shows the Microsoft Power Automate 'Edit your flow' page. The sidebar on the left is identical to the previous screenshot. The main area shows the 'Adobe Challenge Import' flow. It starts with a trigger 'When a new email arrives (V3)', followed by an 'Apply to each' loop with 'Attachments' selected. Inside the loop, there are four actions: 'Convert Word to PDF (Preview)' (with 'File Name' set to 'Attachments N...' and 'File Content' set to 'Attachments C...'), 'Protect PDF from Copying, Editing and Printing (Preview)', 'Upload a document and get a document ID', and 'Create an agreement from an uploaded document and send for signature'. There is also an 'Add an action' button at the bottom of the list. At the top right, there are buttons for 'Save', 'Flow checker', and 'Test'.
